## **WELCOME to XL EABCT 2010 – LINKS**

When three years ago the title LINKS was chosen, we had the hope to be able to realize a connection between people, approaches and scientific, clinical and social themes. Now, on the verge to present you the final program of the congress, we are realizing that the reality has overcome our expectations. From everywhere interesting and updated contributions arrived, a complex corpus of studies and experiences has been built, the articulated possibilities and perspectives of CBT in the research field and in the real world has been evidenced.

We are extremely grateful for the enthusiasm with whom, friends and colleagues have answered to our call and are felt involved in our project. The scientific and the organizing Committees did their best to accept every proposals and to host them in a better and significant way. As you can see we have organized more than 150 scientific events as a whole, consisting in keynotes, state of the art lectures, symposia, workshops, meet-the-expert, round tables, interactive sessions, poster sessions, movies presentations... We are confident that every delegates will find stimulating and enriching high levels opportunities to meet their personal interests and objectives.

Special attention has been given also to the social and cultural program, in which we tried to make a trendy blending of engagement and fun, to facilitate exchanges and relationships, to gather people from forty five countries in a warm, relaxing but exciting atmosphere.

The tradition and the characteristics of Milan help us to offer you a hopefully memorable experience.

Let's live together the next four days dedicated to knowledge, emotions and friendship.

## USEFUL INFORMATION ABOUT MILAN

### Climate and weather conditions

At the begin of October, Milan has a pleasant climate, with temperatures of about 12°/16°C degree during the day.

### Bank and exchange

The official currency in Italy is Euro (€). Banks are open from Monday to Friday from 08.30 to 13.30 hrs. and again from 14.45 to 16.15 hrs. Banks are closed on Saturday and Sunday. Many banks have automatic currency exchange machines that also take credit cards. Exchange offices at airports and main railway stations are normally open 06.00 - 22.00 hrs. All major credit cards (VISA, American Express, Diners, Mastercard) are accepted in most hotels and restaurants, shops and outlets. Please beware, however, that taxis and few smaller businesses may not accept credit card payment and you are advised to check prior to purchase. Service is usually included in the bill in bars and restaurants, but tips are welcome.

### Post Offices

The opening times of the post offices are: Monday to Friday from 08.30 to 15.30 hrs; Saturday from 08.30 to 12.00 hrs.

### VISA Requirements

European Community passport holders do not need a visa to visit Italy. Many other nationalities are also exempt for stays of up to 3 months, however, if in doubt we advise you to check before travelling with your local Italian embassy or consulate for Visa Requirements.

### Electricity

The electrical power supply in Italy is 220 volts, 50Hz. Plugs have two or three round pins. Some foreign voltage could require an adapter.

### Restaurants

From a quick snack to a gourmet meal at a fine restaurant the choices for eating out in Milan are endlessly varied, from traditional Milanese and different Italian regions cooking to international, ethnical and fusion cuisine.

### Shopping

Milan is a temple of high fashion and the so-called Quadrilateral (Quadrilatero della Moda) of fashion, formed by Via Montenapoleone, Via Sant'Andrea, Via Manzoni, Via della Spiga is top of the list. But in the historic centre and outside the historic centre many beautiful department stores and special areas are able to move into even bigger premises: Corso Buenos Aires (North), Corso Vercelli (West) and Corso XXII Marzo (East) are runners up for fashion shopping. Most shops open 09.30 - 13.00 hrs and 15.30 - 19.30 hrs, although the bigger stores stay open all day. For furniture and design, a good bet is the district around Brera. The area is also popular with antique dealers. Antique fairs are also popular at the weekends around the Naviglio Grande, along the banks of the canal.

### Public Transport and Taxi

The cost of the over-ground and underground transport is the same: to use public transport only one ticket (one euro) is needed, which is valid for 75 minutes after stamping on the bus, tram and metro network. Special tickets give unlimited use of all public transport for one whole day. Tickets can be bought from bars, kiosks and from automatic ticket machines, but not in buses. Public transport runs from 6.00 hrs. to midnight, plus night buses. The taxi in Milan are white, and park in ranks supplied with a telephone. Useful radiotaxi numbers: 028585; 024040
